

In the name of the Father, the Son and the Holy Spirit

Lord,

Please help us to be open to the new challenges and opportunities that we face each day.

Thank you Lord, for blessing our school with this great teaching staff and administration please help give them the extra patience and strength they need to work with our children each day, & help them to grow in Christ.

Help us to grow during this new school year to have a renewed sense and focus on the Christ skills and how they relate to the mission of our school. Help us to remember to listen carefully to our children, to our peers. To always be careful with the words that we use in our daily conversations with our children, in our school and in all that we do. Help us to find time to volunteer and to remember to use our time and talents that you have blessed us with, and to work to become active members with our school CPTA so that we can have a true understanding of our child's school. Lord, help us to stay positive and have a renewed energy and openness to the many new possibilities that you have granted for us during this next school year.

In Jesus' Name

AMEN
